Park Operations and Projects

Airline Trail

The stone dust has been added to the Colchester Spur which connects the main trail to Colchester Downtown. Over the course of the construction months; we plan on adding gates to the new entry points, and do trail maintenance on Hebron portion of trail.

The Town recently received a Grant from the State for the material. All work was done by the Park and Highway Crews.

Burnt Hill Park

In our goal to increase our sustainability; we will be adding photo cells to the Park Operation Building. The Town has received a Grant for this project. We hope to reduce our electric bill by 20%.

Veteran's Memorial Park

We have recently completed the renovation of the skate park. The renovation included work to the understructure and 4 ramps were replaced. Plans call for additional work next winter.

The baseball field at Veteran's was completely renovated and changed from a 60' to 70' field. This now gives the Town 2 70' fields. Work was done by the Park Crew.

General Park Plans

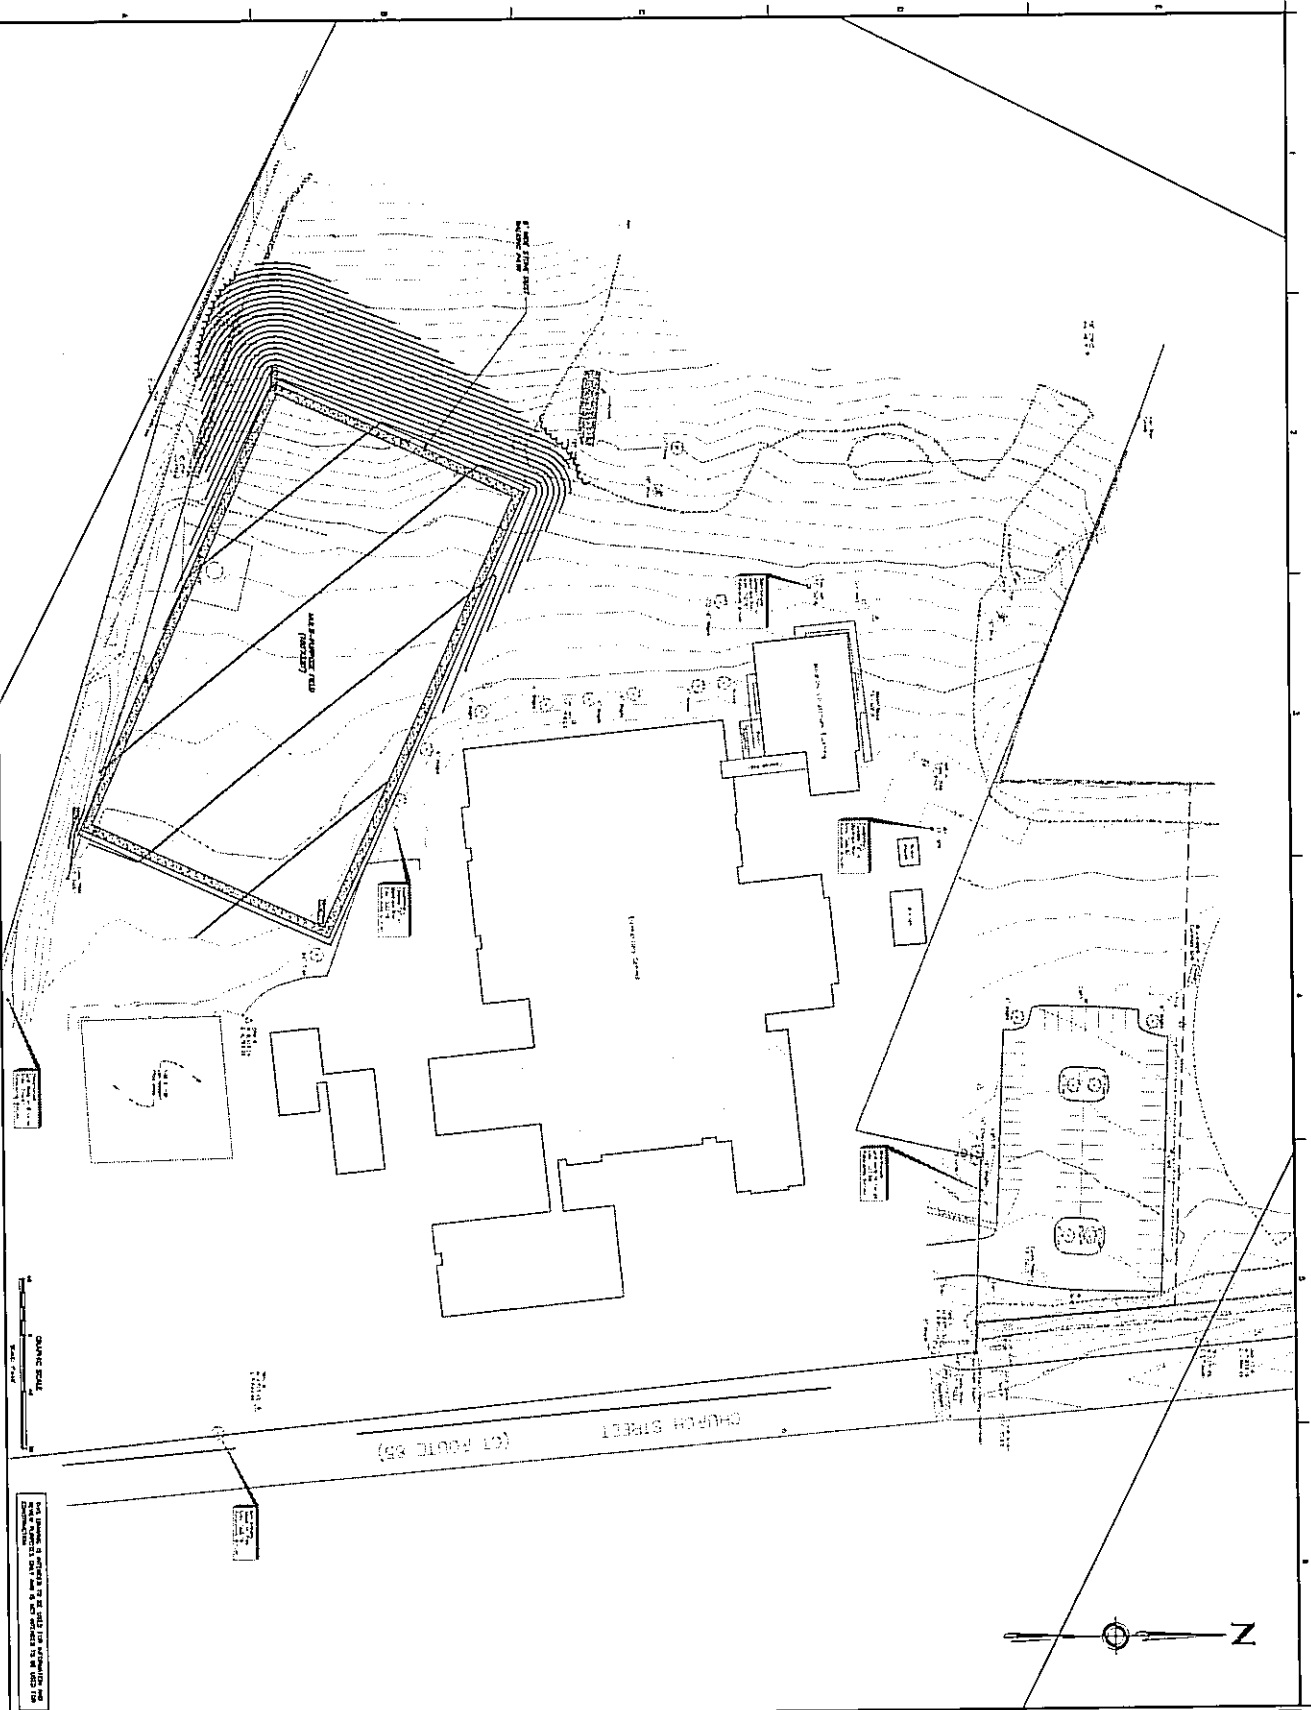

The Parks Department is using an integrated cultural pest management plan. This plan entails using common sense and good cultural practices in the maintenance of turf.

Keys to Success

- Identification of the source of any problems
- If problem-what is the cause (i.e., disease, insect, weed)
- Determination of the tolerance level for pest
- Regular Scouting
- Determination other means available then pesticides
- Identification and implementation of cultural techniques to manage pest problems

Hebron Elementary

We hope on starting work on the field renovation as soon as school ends. The plans are posted on the next page.
