Subject: Affordable Housing Plan

Hello Mr. Gallagher,

I'm writing to express my support for the Plan for Housing Choices. I feel it is important to provide housing for all income levels in Hebron and, hopefully, increase our diversity. There is one change and one addition that I would like the P&Z Commission to consider is the 5 year goal for affordable housing. The plan recommends a goal of 50 affordable housing units. I would like the goal be 150 affordable units. I would also like to see a five year goal for developing water and sewer access in Hebron's Town Center. I would appreciate having this letter read into the record at the next Planning and Zoning meeting.

Thank you.

Sincerely,
Sue Smallidge
